SECTION XI
U S COAST AND GEODETIC SURVEY
T.C.MENDENHALL SUPERINTENDENT
SHEET No 3
TOPOGRAPHY OF
WASHINGTON SOUND
WASH
PART OF ORCAS ISLAND
1889
Scale 1/10,000
Surveyed by J. J. Gilbert Assist
Register No. 1954
Note: The contourlines where unbroken have been traced as accurately as the character of the topography will permit; - broken lines have been sketched, by aid of cuts, and represent the general character of the country only.
The curves of equal elevation are given for every 20 feet and refer to mean tide.
STATISTICS
Miles of Shore-line - 23,3
Miles of Roads - 18,3
Square-miles of Area - 16.8
