SECTION XI
U.S. COAST AND GEODETIC SURVEY
W.W. DUFFIELD SUPERINTENDENT
SHEET No 5
TOPOGRAPHY OF
WASHINGTON SOUND
WASH
ORCAS AND WALDRON ISLANDS
1894
Scale 1-10000
J. J. Gilbert Assist.
Note. Wherever roads or open country permitted, the contour lines are accurately located; other contours are sketched, with the aid of cuts on conspicuous trees, and represent the general characteristic features of the topography.
The curves of equal elevation are given for every 20 feet and refer to mean tide.
STATISTICS
Shore-line, Miles 22.3
Roads " 12.5
Area, Square. 16.0
