

Appendix I Table 1(a): ALLOWABLE WORK WINDOWS FOR FRESHWATER¹			
General Season² by County		Exceptions to General Season³	
County/Watershed	Activity is Allowed Only Between These Dates	Stream and All Tributaries, Unless Otherwise Listed	Timing
<u>King</u>	<u>Non-Pamphlet HPA</u> July 1 - September 30	Green River (Duwamish River)	August 1 - August 31
		Lake Sammamish	July 16 - March 31
		Lake Washington	June 16 - October 31
		- Ship Canal, Portage Bay, and Lake Union	October 1 - April 15
		- South of I-90	July 16 - December 31
		- South of I-90 within 1 mile of Cedar River or Mercer Slough	July 16 - July 31; and November 16 - December 31
		- Between I-90 and SR 520	July 16 - April 30
		- Between SR 520 and south of Arrowhead Point	July 16 - December 31
		- North of Arrowhead Point	July 16 - July 31; and November 16 - December 31
		All Lake Washington tributaries	July 1 - August 31
		except, - Issaquah Creek	June 15 - July 31
		Snoqualmie River - mouth to Snoqualmie Falls	July 1 - September 15
		- Raging River	July 15 - August 31
		- Patterson Creek	June 15 - September 30
		Snoqualmie River	
		- Snoqualmie Falls to mouth of South Fork Snoqualmie River	June 15 - October 31
		- North Fork Snoqualmie River	July 15 - October 31
		- Middle Fork Snoqualmie River	July 15 - October 31

Appendix I - Table 1(a): ALLOWABLE WORK WINDOWS FOR FRESHWATER¹ (cont.)			
General Season² by County		Exceptions to General Season³	
County/Watershed	Activity is Allowed Only Between These Dates	Stream and All Tributaries, Unless Otherwise Listed	Timing
<u>King</u>	<u>Non-Pamphlet HPA</u> July 1 - September 30	- South Fork Snoqualmie River	July 15 - October 31
		South Fork Skykomish River - mouth to Sunset Falls	July 1 - July 15
		South Fork Skykomish River - Sunset Falls to Alpine Falls	July 1 - August 15
		South Fork Skykomish River - above Alpine Falls	July 1 - October 31
		- Beckler River - mouth to Boulder Creek	July 1 - September 15
		- Foss River - mouth to forks	July 15 - September 15
		- East Fork Foss River	July 15 - August 15
		- West Fork Foss River	July 15 - October 31
		- Miller River - mouth to forks	July 1 - September 15
		- Miller River – above forks	July 1 - October 31
		Tolt River - mouth to forks	July 15 - October 31
		- North Fork Tolt River) - mouth to Yellow Creek	July 15 - September 15
		- North Fork Tolt River - above Yellow Creek	July 15 - October 31
		- South Fork Tolt River - mouth to dam	July 15 - September 15
		- South Fork Tolt River - above dam	July 15 - October 31
		White River	July 15 - August 31
		- Greenwater River	July 15 - August 15
	Aquatic Plants Pamphlet HPA July 15 - September 15	White River	July 15 - August 31

Appendix I – Table 1(a): ALLOWABLE WORK WINDOWS FOR FRESHWATER ¹ (cont.)			
General Season ² by County		Exceptions to General Season ³	
County/Watershed	Activity is Allowed Only Between These Dates	Stream and All Tributaries, Unless Otherwise Listed	Timing
<u>King</u>	Aquatic Plants Pamphlet HPA July 15 - September 15	- Greenwater River	July 15 - August 15
		Sammamish River	July 1 - September 1
		Snoqualmie River	July 1 - September 30
		Skykomish River	July 1 - September 1
		Wallace River	July 1 - September 1

1. The allowable work windows apply to those waters of the state that are subject to the Hydraulic Code. Additional time restrictions may be incorporated for the protection of federally listed species and water quality concerns in those state waters that are not covered by the Hydraulic Code.
2. The General Season for a county applies to all streams within that county, **unless** a specific season is given for a listed stream in that county under Exceptions to the General Season. Some streams flow through multiple counties. Check the listing for the county in which you propose to work to determine the open season for that stream.
3. The season for a listed Exception to the General Season applies to **all** its tributaries, **unless** a tributary of that stream is also listed with a separate season. Such tributaries are listed below the parent stream with an indent and a (-). Some streams flow through multiple counties. Check the listing for the county in which you propose to work to determine the open season for that stream.

Appendix I – Table 1(b): ALLOWABLE WORK WINDOWS FOR FRESHWATER¹			
General Season² by County		Exceptions to General Season³	
County/ Watershed	Activity is Allowed Only Between These Dates	Stream and All Tributaries, Unless Otherwise Listed	Timing
<u>Skagit</u>	Non-Pamphlet HPA July 1 - September 30	Baker River - mouth to dam	June 15 – August 31
		Samish River	July 15 – September 15
		Skagit River - mouth to Sauk River	June 15 - August 31
		- Bacon Creek	August 1 – August 31
		- Diobsud Creek	August 1 – August 31
		- Goodell Creek	August 1 – August 31
		- Cascade River	July 15 – August 15
		- Illabot Creek	July 15 – August 31
		- Sauk River	August 1 - August 15
		- Suiattle River	July 15 – July 31
		- Big Creek	July 15 – July 31
		- Straight Creek	July 15 – July 31
		- Sulpher Creek	July 15 – July 31
		- Buck Creek	July 15 – July 31
		- Lime Creek	July 15 – July 31
		Skagit River – mouth of Sauk River to barrier dam	August 1 – August 15
		Nooksack River	June 15 - August 15
		- South Fork Nooksack River	July 15 - August 15
		Sauk River	July 15 - August 15
	Suiattle River	July 15 - August 15	
Aquatic Plants Pamphlet HPA June 15 - September 30			

1. The allowable work windows apply to those waters of the state that are subject to the Hydraulic Code. Additional time restrictions may be incorporated for the protection of federally listed species and water quality concerns in those state waters that are not covered by the Hydraulic Code.
2. The General Season for a county applies to all streams within that county, **unless** a specific season is given for a listed stream in that county under Exceptions to the General Season. Some streams flow through multiple counties. Check the listing for the county in which you propose to work to determine the open season for that stream.
3. The season for a listed Exception to the General Season applies to **all** its tributaries, **unless** a tributary of that stream is also listed with a separate season. Such tributaries are listed below the parent stream with an indent and a (-). Some streams flow through multiple counties. Check the listing for the county in which you propose to work to determine the open season for that stream.

Appendix I – Table 1(c): ALLOWABLE WORK WINDOWS FOR FRESHWATER¹			
General Season² by County		Exceptions to General Season³	
County/Watershed	Activity is Allowed Only Between These Dates	Stream and All Tributaries, Unless Otherwise Listed	Timing
Snohomish	<u>Non-Pamphlet HPA</u> July 1 - September 30	All Lake Washington tributaries	July 1 - August 31
		Sauk River	July 15 - August 15
		Snohomish River - mouth to Highway 9	June 1 - October 31
		Snohomish River - above Highway 9	July 1 - August 31
		- Pilchuck River - mouth to City of Snohomish diversion dam	July 1 - August 31
		- Pilchuck River - above City of Snohomish diversion dam	July 1 - September 15
		- Skykomish River - mouth to forks	July 15 - August 31
		- North Fork Skykomish River - mouth to Bear Creek Falls	July 15 - August 15
		- Sultan River - mouth to old diversion dam	July 15 - August 31
		- Wallace River - mouth to Wallace Falls	July 1 - September 1

Appendix I - Table 2(a): ALLOWABLE WORK WINDOWS FOR MARINE WATERS				
Tidal Reference Area	General Season Activity Is Allowed Only Between These Dates	Exceptions to General Season²		
		Exception	Activity Is Allowed Only Between These Dates	Species Protected
Marine Waters - Puget Sound and Straits	Non-Pamphlet HPA See listings for Tidal Reference Areas below	No Exceptions		
Marine Waters - Puget Sound and Straits	Aquatic Plants Pamphlet HPA June 15 - March 14	Contact local WDFW Area Habitat Biologist regarding additional, specific restrictions for surf smelt and sand lance spawning	Area and species dependent	
4 (Tacoma): All saltwater areas northerly of the Tacoma Narrows Bridge and southerly of a line projected true west and true east across Puget Sound from the northern tip of Vashon Island.	August 1 - February 14	None		Juvenile Salmonids
	See Table 3	See Table 3		Surf Smelt
	April 15 - December 30	None		Pacific Herring
	March 1 - October 14	None		Pacific Sand Lance
	October 15 - May 14	None		Lingcod
	July 2 - January 31	None		Bull Trout

1. In tidal reference areas with discrete spawning periods, closure is for 100% of the identified spawning curve and a survey is required the remainder of the year to verify the absence of spawn immediately prior to initiating construction.

2. In tidal reference areas with year round spawning, year round closure.

Appendix I - Table 2(b): ALLOWABLE WORK WINDOWS FOR MARINE WATERS (cont.)				
Tidal Reference Area	General Season Activity Is Allowed Only Between These Dates	Exceptions to General Season²		
		Exception	Activity Is Allowed Only Between These Dates	Species Protected
5 (Seattle): All saltwater areas northerly of a line projected true west and true east across Puget Sound from the northern tip of Vashon Island and southerly of a line projected true east from Point Jefferson at 47° 15' N. latitude across Puget Sound. This area includes Port Orchard, Port Madison, and Dyes and Sinclair Inlets.	August 1 - January 14			Juvenile Salmonids
	See Table 3	See Table 3		Surf Smelt
	April 15 - December 30	None		Pacific Herring
	March 1 - October 14	None		Pacific Sand Lance
	October 15 - May 14	None		Lingcod
	July 2 - January 31	None		Bull Trout
6 (Edmonds): All saltwater areas northerly of a line projected true east from Point Jefferson at 47° 15' N. latitude across Puget Sound and southerly of a line projected true east from Possession Point to Chenault Beach and from Foulweather Bluff to Double Bluff.	July 16 - March 14	None		Juvenile Salmonids
	See Table 3	See Table 3		Surf Smelt
	March 1 - October 14	None		Pacific Sand Lance
	October 15 - May 14	None		Lingcod
	July 2 - January 31	None		Bull Trout

1. In tidal reference areas with discrete spawning periods, closure is for 100% of the identified spawning curve and a survey is required the remainder of the year to verify the absence of spawn immediately prior to initiating construction.
2. In tidal reference areas with year round spawning, year round closure.

Appendix I - Table 2(c): ALLOWABLE WORK WINDOWS FOR MARINE WATERS				
Tidal Reference Area	General Season Activity Is Allowed Only Between These Dates	Exceptions to General Season²		
		Exception	Activity Is Allowed Only Between These Dates	Species Protected
7 (Everett): All saltwater areas northerly of a line projected true east from Possession Point to Chenault Beach, easterly of a line projected 5° true from East Point to Lowell Point, and southerly of the Stanwood to Camano Island Highway. This area includes Port Gardner, Port Susan, and parts of Possession Sound and Saratoga Passage.	August 1 - January 14	Lower Snohomish River dredging	October 1 - January 14	Juvenile Salmonids
	See Table 3	See Table 3		Surf Smelt
	April 15 - January 14	None		Pacific Herring
	March 1 - October 14	None		Pacific Sand Lance
	October 15 - May 14	None		Lingcod
	July 2 - January 31	None		Bull Trout
8 (Yokeko Point): All saltwater area westerly and northerly of a line projected 5° true from East Point to Lowell Point, north of the Stanwood to Camano Island Highway, and easterly and southerly of Deception Pass Bridge and the Swinomish Channel Bridge on State Highway 536. This area includes Holmes Harbor, Saratoga Passage, Skagit Bay, Similk Bay, and most of the Swinomish Channel.	July 16 - February 14	None		Juvenile Salmonids
	See Table 3	See Table 3		Surf Smelt
	April 30 - January 31	None		Pacific Herring
	March 1 - October 14	None		Pacific Sand Lance
	October 15 - May 14	None		Ling Cod
	July 2 - January 31	None		Bull Trout

1. In tidal reference areas with discrete spawning periods, closure is for 100% of the identified spawning curve and a survey is required the remainder of the year to verify the absence of spawn immediately prior to initiating construction.
2. In tidal reference areas with year round spawning, year round closure.

Appendix I - Table 2(d): ALLOWABLE WORK WINDOWS FOR MARINE WATERS				
Tidal Reference Area	General Season Activity Is Allowed Only Between These Dates	Exceptions to General Season²		
		Exception	Activity Is Allowed Only Between These Dates	Species Protected
9 (Blaine): All saltwater area in Skagit County and Whatcom County that lies northerly of the Swinomish Channel Bridge on State Highway 536 and westerly and northerly of Deception Pass Bridge.	October 1 - March 14	Cherry Point	August 1 - March 14	Juvenile Salmonids
	See Table 3	See Table 3	See Table 3	Surf Smelt
	—	Fidalgo Bay, Samish Bay, Portage Bay and Drayton Harbor	April 15 - January 15	
		Hale Passage north to Point Roberts	June 15 - January 31	
	March 1 - October 14	None		Pacific Sand Lance
	October 15 - May 14	None		Ling Cod
July 2 - January 31	None		Bull Trout	

1. In tidal reference areas with discrete spawning periods, closure is for 100% of the identified spawning curve and a survey is required the remainder of the year to verify the absence of spawn immediately prior to initiating construction.
2. In tidal reference areas with year round spawning, year round closure.

Appendix I - Table 2(e): ALLOWABLE WORK WINDOWS FOR MARINE WATERS				
Tidal Reference Area	General Season Activity Is Allowed Only Between These Dates	Exceptions to General Season²		
		Exception	Activity Is Allowed Only Between These Dates	Species Protected
10 (Port Townsend): All saltwater area of Puget Sound as defined in WAC 220_16_210 except Hood Canal south of a line projected from Tala Point to Foulweather Bluff, and except all waters defined in Tidal Reference Areas 1 through 9. Area 10 includes waters of the San Juan Islands, Admiralty Inlet, the Strait of Juan de Fuca, and associated bays and inlets.	July 1 - February 14	Straits	July 15 - February 14	Juvenile Salmonids
	See Table 3	See Table 3	See Table 3	Surf Smelt
	May 1 - January 14	None		Pacific Herring
	March 1 - October 14	None		Pacific Sand Lance
	October 15 - May 14	None		Lingcod
	July 2 - January 31	None		Bull Trout

1. In tidal reference areas with discrete spawning periods, closure is for 100% of the identified spawning curve and a survey is required the remainder of the year to verify the absence of spawn immediately prior to initiating construction.
2. In tidal reference areas with year round spawning, year round closure.

Appendix I - Table 3: Allowable Work Windows for Protection of Surf Smelt	
Tidal Reference Area	Allowable Work Window^{1,2}
4 (Tacoma)	March 15 - September 30
5 (Seattle)	April 1 - August 30
6 (Edmonds)	February 1 - September 30
7 (East Camano Island)	January 15 - April 30
7 (Everett)	February 15 - October 14
8 (Yokeko Point)	February 15 - March 31
9 (Fidalgo Bay)	April 1 - May 14
9 (North Samish Island)	March 15 - September 30
9 (Bellingham Bay)	December 1 - April 14
9 (Birch Bay)	Closed
9 (Point Roberts)	October 1 - May 14
10 (San Juan County)	Closed

1. In tidal reference areas with discrete spawning periods, closure is for 100% of the identified spawning curve and a survey is required the remainder of the year to verify the absence of spawn immediately prior to initiating construction.
2. In tidal reference areas with year round spawning, year round closure.
